

Privacy Policy

Thank you for using AXShoter! Your privacy is important to us. This document explains how we handle your data.

Data Collection & Usage

AXShoter does **not** collect, store, or share any personal data, browsing history, or user activity outside of the extension's functionality.

What AXShoter Does NOT Do:

-  We do not track your browsing history.
-  We do not collect personal information.
-  We do not store or send any data to external servers.
-  We do not display ads or use analytics tracking.

Local Storage

AXShoter operates entirely on your device. Screenshots, screen recordings, and activity logs are stored **locally** and are never uploaded to the internet.

Permissions Explanation

AXShoter requests certain Chrome permissions **only to enable its core features**:

- **Screen Recording & Screenshots** – Requires tabCapture and desktopCapture to record the active tab or full screen.
- **Activity Logging (Optional)** – If enabled, logs user interactions (clicks, keypresses) but never transmits them externally.
- **Storage** – Saves user preferences (e.g., video quality) locally.
- **Downloads** – Allows saving screenshots and recordings to your device.

Third-Party Services

AXShoter does **not** integrate with third-party services, APIs, or cloud storage providers.

Changes to This Policy

If any updates to this privacy policy occur, they will be reflected here.

Contact
